

# Job Description – Wireless Financial Analyst/Consultant

## CostQuest Associates

CostQuest Associates (CQA) is the frontrunner in designing, developing, and implementing economic models for the telecommunications industry. CQA provides the modeling, input, training, maintenance, testimony, and witnessing that is required of any model used in advocacy or public hearings.

CQA serves the telecommunications industry and government clients with services related to valuation and appraisal, public policy and business planning. Clients such as the Federal Communications and U.S. Department of Commerce have relied on CQA's expertise to inform policy and regulations. AT&T, Verizon, Comcast and other providers of broadband services use CQA for valuation and appraisal services in support of tax and M&A initiatives.

CQA is a small company with a large profile within the telecommunications industry. We are well known and well respected for our deep analytical approach and unique applications and models.

CQA is based in Cincinnati, Ohio, with an office in Seattle, Washington and presence in Washington, D.C.

## Job Description

The successful applicant must have familiarity with wireless telecommunications, network equipment, and the financial analysis or capital planning of wireless communication networks. This individual should be willing to develop and review complex cost/financial models. The successful applicant will interact with a range of clients to construct models of planned capital deployment as well as deriving required equipment types, capacities, and costs. The successful applicant must be comfortable communicating across multiple organizational levels and leading projects.

The successful applicant must demonstrate a record of progressive responsibility, financial/cost modeling capabilities and thorough understanding of wireless telecommunications. The successful applicant will have at least 5 years of professional experience.

## Position Requirements

This experience should include the following areas:

- Financial analysis and in-depth understanding of contemporary wireless networks
- Capital planning, cost, or business case models of wireless networks
- Development and testing of financial models

- Analysis of engineering, equipment deployment, and project costs
- Implementation of client focused solutions
- Executive level writing and presentation
- Documenting methods and assumptions
- The ability to multi-task in fast moving, team-based environment

## **Education:**

We anticipate the successful candidate will have at least a bachelor's degree in finance, accounting, economics, or engineering. Additional graduate or professional studies could be beneficial.

## **Location:**

Cincinnati, OH, Seattle, WA, or potentially remote

## **Other Requirements:**

- Occasional travel to locations such as Washington, D.C., Seattle, Cincinnati and elsewhere.
- To meet the U.S. Government clearance requirements for this opportunity, candidates must be eligible to work in the United States.
- Ability to pass a U.S. Public Trust background investigation for access to the client site and computing systems. You must have lived in the U.S. for the past three (3) years.
- As a Federal Contractor, all employees are required to be fully vaccinated against Covid-19 and provide proof of vaccination prior to the first date of employment.
- All candidates will be subject to a background check and pre-employment drug screening.

## **Compensation:**

Competitive Salary and Benefits

**Interested candidates should send a cover letter and resume to [recruiting@costquest.com](mailto:recruiting@costquest.com)**
